Diagnostic and Interventional Radiology is published bimonthly by the Turkish Society of Radiology. It is peer-reviewed and adheres to the highest ethical and editorial standards. The editors of the journal endorse the Editorial Policy Statements Approved by the Council of Science Editors Board of Directors (www.councilscienceeditors.org/services/draft_approved.cfm). The journal is in compliance with the Uniform Requirements for Manuscripts Submitted to Biomedical Journals published by the International Committee of Medical Journal Editors (updated April 2010, www.icmje.org).

An electronic edition of Diagnostic and Interventional Radiology is available at www.dirjournal.org (ISSN 1305-3612).

First ten volumes of Diagnostic and Interventional Radiology have been published in Turkish under the name of Tanısal ve Girişimsel Radyoloji (Index Medicus® abbreviation: Tani Girism Radyol), the current title's exact Turkish translation.

© All rights of the articles published in Diagnostic and Interventional Radiology and displayed online at www.dirjournal.org are reserved by the Turkish Society of Radiology.

Diagnostic and Interventional Radiology is indexed in Science Citation Index Expanded, Index Medicus®, EMBASE®, SCOPUS®, Directory of Open Access Journals (www.doaj.org) and the Turkish Medical Index.

Instructions for Authors

Manuscript submission is online at www.dirjournal.org. Please refer to the detailed Instructions for Authors at www.dirjournal.org and use them as a checklist.

Online manuscript submission

Carefully read the Instructions for Authors to the left. Go to the Diagnostic and Interventional Radiology website at www.dirjournal.org.

Click Online Manuscript Submission.

If you are a registered user, enter your username and password. If you are not, register by clicking New User. Fill in the form and click Send. Define your username and password. When Author Center opens, enter New Submission. From this point on, follow the steps by clicking on the Next button. Select manuscript category (neuroradiology, abdominal imaging, etc.) and type (original article, case report, etc.).

Enter affiliation, city, and country data (do not abbreviate institutional names). Enter author data. Full names of the authors should be given, an e-mail address must be provided, and corresponding author should be identified.

Enter the manuscript title.

Enter the abstract (it should be structured in all Manuscripts, except case reports).

Enter the key words.

Enter a cover letter.

Upload your manuscript in the following manner:

Name your manuscript, which must be a Word document, as “text”. This document should contain, in an orderly fashion, the main text (without any author or affiliation information), references, tables on separate pages, and figure legends. Search for your manuscript document by using the Browse button. After selecting the document, click the Upload button. Upload the figures. Every figure part should be properly named as separate files (e.g., “Figure_1a”), browsed as explained above, and separately uploaded. Drawings and graphs are regarded as figures.

After all has been uploaded, click the Send Manuscript button. If you do not click this button, you may visit later to complete the manuscript submission. Your incomplete submission will be saved for later completion.

Do not forget to sign the Copyright Transfer Form (accessible at www.dirjournal.org) and e-mail (info@dirjournal.org) a scanned version of the signed form once your submission is provisionally accepted. Acceptance of your submission will be pending the receipt of the Copyright Transfer Form, and your manuscript will not be published online or in print form unless the Copyright Transfer Form is received.

stored in EPS format; the EPS file must always contain a preview of the figure in TIFF. Suitable drawing programs include Freehand, Illustrator, Corel Draw, and Designer.

Case reports

Case reports should be structured as follows: a short abstract (not to exceed 250 words), key words (3–5), a brief introduction, the case report, discussion and references.
Contents

INTERVENTIONAL RADIOLOGY

61 Technical note. Recanalization of occlusive transjugular intrahepatic portosystemic shunts inaccessible to the standard transvenous approach. R. Miraiglia, L. Maruzzelli, A. Luca

66 Case report. Management of an infected aortic graft with endovascular stent grafting. S. Jamel, R. Attia, C. Young

70 Case report. Superior vena cava syndrome: do not miss the Ariadne’s thread. M. El Hajjam, P. Y. Marcy, A. Lacout, J. Thariat, P. Lacombe

Complete copyright to the article entitled:

(Hereinafter, "the article") is hereby transferred to the Turkish Society of Radiology (for United States government employees to the extent transferable), effective if and when the article is accepted for publication in Diagnostic and Interventional Radiology.

The copyright which the authors assign to the Turkish Society of Radiology encompasses all rights to exploit the article in any manner throughout the world. These rights include, but are not limited to, all print reproduction and publication rights and electronic publication rights, such as CD-ROM and online publication, as well as dissemination by any technology now known or later devised.

The author(s) retain all patent and other proprietary rights to the article, with exception of the copyright. If an author wishes to reproduce the article in any medium for distribution purposes, the author must obtain permission from the Turkish Society of Radiology and, if permission is granted, the author must credit the original source of publication when the article is reproduced.

The author(s) certify that:
1. The article does not infringe any personal or proprietary rights of others;
2. The editor-in-chief of Diagnostic and Interventional Radiology has been or will be informed of any proprietary or commercial interest or conflicts of interest the authors may have that relate directly or indirectly to the subject of this article;
3. The scientific content of radiologic images has not been altered, and that disclosure has been made regarding computer enhancement or other electronic manipulation of radiologic images;
4. The authors have made substantive and specific intellectual contributions to this article and assume full responsibility for its content;
5. This article has not been previously published and is not currently under consideration for publication elsewhere; and
6. This agreement has been signed by all of the authors who contributed to the article.
