Instructions for Authors

This journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals, as published by the International Committee of Medical Journal Editors (updated August 2013, www.icmje.org).

Scope

*Diagnostic and Interventional Radiology* is a medium for disseminating scientific information based on research, clinical experience, and observations pertaining to diagnostic and interventional radiology.

- This journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals, as published by the International Committee of Medical Journal Editors (updated December 2013, www.icmje.org). Any clinical trials must be registered as outlined in the ICMJE guidelines.
- For studies reporting diagnostic accuracy, please refer to the Standards for Reporting of Diagnostic Accuracy (STARD) checklist at http://www.stard-statement.org/.

The author(s) MUST sign, scan and e-mail the Copyright Transfer Form within three days AFTER their manuscript’s acceptance for publication (info@dirjournal.org). Otherwise online or print publication will not be made.

Form of manuscript

Papers must be in English and presented in the following order:

- Title of the manuscript
- Abstract (250 words or less, structured for original articles)
- Text of paper
- Acknowledgements
- Conflict of interest disclosure
- References
- Tables (numbered with Arabic numerals; 1, 2, 3, etc.), prepared on separate sheets
- Figure legends (numbered consecutively using Arabic numerals)

Please use appropriate subheadings and arrange your text as follows:

Abstract

The abstract should contain four sections (for original articles only): Purpose; Methods; Results; Conclusion. Each section should comprise one paragraph, beginning with the name of the section in uppercase letters, followed by a colon: (PURPOSE: To report examples of ...)

Introduction

State briefly the nature and purpose of the work, quoting the relevant literature.

Methods

Include the details of clinical and technical procedures.

Research ethics standards compliance

All manuscripts dealing with human subjects must contain a statement indicating that the study was approved by the Institutional Review Board or comparable formal research ethics review committee. If none is present at your institution, there should be a statement that the research was performed according to the Declaration of Helsinki principles (www.wma.net/e/policy/b3.htm). There should also be a statement about whether informed consent was obtained from research subjects.

Results

Present these clearly, concisely, and without comment.

Discussion

Explain your results and relate them to those of other authors; define their significance for clinical practice.

References

Only essential references should be cited. If there are six or fewer authors, all should be listed. If there are seven or more, list the first three and then “et al.” the rest. The list should be in order of first appearance in the text. Only numerals should be cited in the text. Journal names should be abbreviated according to MEDLINE (http://www.ncbi.nlm.nih.gov/journals?itool=sidebar).

Journal article

Books

Tables

Tables should have a title and footnotes explaining any abbreviation used in that table. Lowercase letters (a, b, c, ... ) should be used for referenced footnotes.

Figures

All figures should be cited in the text and figure parts should be identified by lowercase letters (e.g., Figure 1a). Graphs and drawings are regarded as figures.

Electronic formats

Scan resolution: Scanned line drawings should be digitized with a minimum resolution of 800 dpi relative to the final figure size. For digital halftones, 300 dpi is usually sufficient.

Color illustrations: Store color illustrations as RGB (8 bits per channel) in TIF format.

Vector graphics: Fonts used in vector graphics must be included. Do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size. Vector graphics exported from a drawing program should be stored in EPS format; the EPS file must always contain a preview of the figure in TIFF. Suitable drawing programs include Freehand, Illustrator, Corel Draw, and Designer.

Online manuscript submission

Carefully read the Instructions for Authors to the left. Go to the Diagnostic and Interventional Radiology website at www.dirjournal.org.

Click Online Manuscript Submission.

If you are a registered user, enter your username and password. If you are not, register by clicking New User. Fill in the form and click Send. Define your username and password. When Author Center opens, enter New Submission. From this point on, follow the steps by clicking on the Next button. Select manuscript category (neuroradiology, abdominal imaging, etc.) and type (original article, review, etc.).

Enter affiliation, city, and country data (do not abbreviate institutional names). Enter author data. Full names of the authors should be given, an e-mail address must be provided, and corresponding author should be identified.

Enter the manuscript title.

Enter the abstract (it should be structured in all Manuscripts, except letter, review, technical note, and pictorial essay).

Enter the key words. Enter a cover letter.

Upload your manuscript in the following manner:

Name your manuscript, which must be a Word document, as “text”. This document should contain, in an orderly fashion, the main text (without any author or affiliation information), references, tables on separate pages, and figure legends. Search for your manuscript document by using the Browse button. After selecting the document, click the Upload button. Upload the figures. Every figure part should be properly named as separate files (e.g., “Figure_1a”), browsed as explained above, and separately uploaded. Drawings and graphs are regarded as figures.

After all has been uploaded, click the Send Manuscript button. If you do not click this button, you may visit later to complete the manuscript submission. Your incomplete submission will be saved for later completion.

Do not forget to sign the Copyright Transfer Form (accessible at www.dirjournal.org) and e-mail (info@dirjournal.org) a scanned version of the signed form once your submission is provisionally accepted. Acceptance of your submission will be pending the receipt of the Copyright Transfer Form, and your manuscript will not be published online or in print form unless the Copyright Transfer Form is received.
