Diagnostic and Interventional Radiology (Diagn Interv Radiol) is a bimonthly periodical of the Turkish Society of Radiology and the content of the journal is available at http://www.dirjournal.org/eng/Anasayfa It is peer-reviewed and adheres to the highest ethical and editorial standards. The editors of the journal endorse the Editorial Policy Statements Approved by the Council of Science Editors Board of Directors (www.councilscienceeditors.org/services/draft_approved.cfm). The journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals published by the International Committee of Medical Journal Editors (updated December 2014, www.icmje.org).

First ten volumes of Diagnostic and Interventional Radiology have been published in Turkish under the name of Tanısal ve Girişimsel Radyoloji (Index Medicus® abbreviation: Tani Girisim Radyol), the current title's exact Turkish translation.

© All rights of the articles published in Diagnostic and Interventional Radiology and displayed online at www.dirjournal.org are reserved by the Turkish Society of Radiology.

Diagnostic and Interventional Radiology is indexed in SCI Expanded, PubMed/MEDLINE, TUBITAK ULAKBIM TR Index, DOAJ, HINARI, EMBASE, Scopus.
Instructions to Authors

Overview
Diagnostic and Interventional Radiology (Diagn Interv Radiol) is a medium for disseminating scientific information based on research, clinical experience, and observations pertaining to diagnostic and interventional radiology. The journal is the double-blind peer-reviewed, international, bimonthly, open-access publication organ of the Turkish Society of Radiology. Diagnostic and Interventional Radiology is currently indexed by Science Citation Index Expanded (2016 IF: 1.892) and PubMed MEDLINE.

Editorial and publication processes of the journal are shaped in accordance with the guidelines of the international organizations such as the International Committee of Medical Journal Editors (ICMJE), the World Association of Medical Editors (WAME), the Council of Science Editors (CSE), the Committee on Publication Ethics (COPE), and the European Association of Science Editors (EASE).

Statements or opinions expressed in the manuscripts published in Diagnostic and Interventional Radiology reflect the views of the author(s) and not the opinions of the editors, the editorial board, or the publisher; the editors, the editorial board, and the publisher disclaim any responsibility or liability for such materials. The final responsibility in regard to the published content rests with the authors.

Submitting manuscripts
- Authors should submit manuscripts using the online peer review system that can be accessed through the DIR web site (www.dirjournal.org) or using the direct link at https://mc04.manuscriptcentral.com/dir.
- Detailed DIR Author Guidelines can be viewed or downloaded from DIR web site (www.dirjournal.org).
- Diagnostic and Interventional Radiology requires authors to submit an Authorship Contributions Form during the initial submission which is available for download through the journal's web page.
- Submitted manuscripts should be original contributions; they should not contain any previously published data or be under consideration by another journal.
- Authors are required to make a full statement at the time of submission about all prior reports and submissions that might be considered duplicate or redundant publication and mention any previously published abstracts for meeting presentations that contain partial or similar material in the cover letter.
- Authors must obtain written permission from the copyright owner to reproduce previously published figures, tables, or any other material in both print and electronic formats and present it during submission.

Copyright transfer
Diagnostic and Interventional Radiology requires each submission to be accompanied by a Copyright Transfer Form which can be downloaded from http://www.dirjournal.org. By signing the copyright agreement, the authors hand over the copyright of their work to the Turkish Society of Radiology. In case of a rejection decision, copyright of the manuscript will be returned to the authors.

Conflict of interest disclosure
Diagnostic and Interventional Radiology requires and encourages the authors and the individuals involved in the evaluation process to disclose any existing or potential conflicts of interests including financial, consultant, institutional, and other relationships that might lead to bias or a conflict of interest. Each contributing author is required to electronically fill in the ICMJE Form for Disclosure of Potential Conflicts of Interest (available at www.icmje.org) and the forms must be submitted during the initial submission.

Initial evaluation and the peer review process
Manuscripts submitted to Diagnostic and Interventional Radiology will first go through a technical evaluation process where the editorial office staff will ensure that the manuscript is prepared and submitted in accordance with the journal's guidelines. Submissions that do not conform to the journal's guidelines will be returned to the submitting author with technical correction requests.

Permissions and reprints
Turkish Society of Radiology handles all requests to reproduce material from Diagnostic and Interventional Radiology. For your convenience, please fill in the permission request form, available for download at the journal's webpage and e-mail a scanned version to info@dirjournal.org.

Please ensure that you include the full reference of the material you want to use (i.e., year of publication, volume, issue, and page numbers, author names, figure numbers where appropriate). Turkish Society of Radiology also requires a detailed overview of how you intend to use the material (i.e., in a book or a journal) and when.
ABDOMINAL IMAGING

271 Original article. MRI in the evaluation of the azoospermic male. B. Regent, K. Skrobisz, O. Kozak, M. Matuszewski, M. Studniarek

CARDIOVASCULAR IMAGING

284 Original article. Liver stiffness value obtained by point shear-wave elastography is significantly related with atrial septal defect size. M. Küçükosmanoğlu, A. S. Koç, H. E. Sümbül, H. Koca, B. Ç. Pekoz, M. Koç

CHEST IMAGING

296 Commentary. Strategies for radiology departments in handling the COVID-19 pandemic. M. A. Ashari, I. A. Zainal, F. M. Zaki

301 Original article. CT findings of COVID-19 in follow-up: comparison between progression and recovery. C.-S. Guan, L.-G. Wei, R.-M. Xie, Z.-B. Lv, S. Yan, Z.-X. Zhang, B.-D. Chen

308 Original article. CT imaging features of COVID-19 pneumonia: initial experience from Turkey. A. Çinkooglu, C. Hepdurgun, S. Bayraktaroğlu, N. Ceylan, R. Savaş

INTERVENTIONAL RADIOLOGY

333 Original article. Radiation dose and image quality of CT fluoroscopy with partial exposure mode. K. Takiguchi, A. Urikura, T. Yoshida, Y. Nakaya, M. Endo, T. Aramaki

MUSCULOSKELETAL IMAGING

349 Original article. Association between tears of the posterior root of the medial meniscus and far posterior femoral condyle osteoarthritis. R. Sebro, S. S. Ashok, M. Uriell

355 Original article. Is bone marrow edema syndrome a precursor of hip or knee osteonecrosis? Results of 49 patients and review of the literature. T. Geith, A.-C. Stellwag, P. E. Müller, M. Reiser, A. Baur-Melnyk

NEURORADIOLOGY

PEDIATRIC RADIOLOGY

370 Original article. Hepatocyte-specific contrast-enhanced MRI findings of focal nodular hyperplasia-like nodules in the liver following chemotherapy in pediatric cancer patients. H. N. Özcan, M. Karçaaltincaba, T. Seber, B. Yalçın, B. Oğuz, C. Akyüz, M. Haliloğlu

LETTER TO THE EDITOR

377 MRI appearance of COVID-19 infection. M. C. Langenbach, N. G. Hokamp, T. Persigehl, G. Bratke

379 “Reversed halo sign” on 3D CT in COVID-19. T. Bekci

380 Rare CT feature in a COVID-19 patient: cavitation. Z. Xu, A. Pan, H. Zhou
