Diagnostic and Interventional Radiology is published bimonthly by the Turkish Society of Radiology. It is peer-reviewed and adheres to the highest ethical and editorial standards. The editors of the journal endorse the Editorial Policy Statements Approved by the Council of Science Editors Board of Directors (www.councilscienceeditors.org/services/draft_approved.cfm). The journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals published by the International Committee of Medical Journal Editors (updated December 2014, www.icmje.org).

An electronic edition of Diagnostic and Interventional Radiology is available at www.dirjournal.org (ISSN 1305-3825 / EISSN 1305-3612).

First ten volumes of Diagnostic and Interventional Radiology have been published in Turkish under the name of Tanısal ve Girişimsel Radyoloji (Index Medicus® abbreviation: Tani Girişim Radyol), the current title's exact Turkish translation.

© All rights of the articles published in Diagnostic and Interventional Radiology and displayed online at www.dirjournal.org are reserved by the Turkish Society of Radiology.

Diagnostic and Interventional Radiology is indexed in SCI Expanded, PubMed/MEDLINE, TUBITAK ULAKBIM TR Index, DOAJ, HINARI, EMBASE, Scopus.

Printed in Turkey
Printed on acid-free paper

Turkish Society of Radiology is one of the foremost medical specialty organizations in Turkey. It was formed by the merger of the two main radiology societies of Turkey, one of which was founded in 1924. The Society is based in Ankara, Turkey.
Instructions for Authors

Manuscript submission is online at www.dirjournal.org. Please refer to the detailed Instructions for Authors at www.dirjournal.org and use them as a checklist.

Scope
Diagnostic and Interventional Radiology is a medium for disseminating scientific information based on research, clinical experience, and observations pertaining to diagnostic and interventional radiology.

- This journal is in compliance with the Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals, as published by the International Committee of Medical Journal Editors (updated December 2014, www.icmje.org). Any clinical trials must be registered as outlined in the ICMJE guidelines.
- For studies reporting diagnostic accuracy, please refer to the Standards for Reporting of Diagnostic Accuracy (STARD) checklist at http://www.stard-statement.org/.

The author(s) MUST sign, scan and submit the Copyright Transfer Form that is assigned to the “Diagnostic and Interventional Radiology” journal at initial submission. Otherwise online or print publication will not be made.

Fax +90-312-4423654

Form of manuscript
Papers must be in English and presented in the following order:
- Title of the manuscript
- Abstract (250 words or less, structured for original articles)
- Text of paper
- Acknowledgements
- Main points
- Conflict of interest disclosure
- References
- Tables (numbered with Arabic numerals; 1, 2, 3, etc.), prepared on separate sheets.
- Figure legends (numbered consecutively using Arabic numerals)

Please use appropriate subheadings and arrange your text as follows:

Abstract
The abstract should contain four sections (for original articles only): Purpose; Methods; Results; Conclusion. Each section should comprise one paragraph, beginning with the name of the section in uppercase letters, followed by a colon. (PurposE: We aimed to report examples of ...)

Introduction
State briefly the nature and purpose of the work, quoting the relevant literature.

Methods
Include the details of clinical and technical procedures.

Research ethics standards compliance
All manuscripts dealing with human subjects must contain a statement indicating that the study was approved by the Institutional Review Board or comparable formal research ethics review committee. If none is present at your institution, there should be a statement that the research was performed according to the Declaration of Helsinki principles (www.wma.net/e/policy/b3.htm). There should also be a statement about whether informed consent was obtained from research subjects.

Results
Present these clearly, concisely, and without comment.

Discussion
Explain your results and relate them to those of other authors; define their significance for clinical practice.

Main points
"Main Points" should emphasize the most striking results of the study and highlight the message that is intended to be conveyed to the readers. These points should be constructed in a way which provides the readers with a general overview of the article and enables them to have a general idea about the article.

References
Only essential references should be cited. If there are six or fewer authors, all should be listed. If there are seven or more, list the first three and then "et al." the rest. The list should be in order of first appearance in the text. Only numerals should be cited in the text. Journal names should be abbreviated according to MEDLINE (http://www.ncbi.nlm.nih.gov/journals/tooid=sidebar).

Journal article

Books

Tables
Tables should have a title and footnotes explaining any abbreviation used in that table. Lowercase letters (a, b, c, ...) should be used for referenced footnotes.

Figures
All figures should be cited in the text and figure parts should be identified by lowercase letters (e.g., Figure 1a). Graphs and drawings are regarded as figures.

Electronic formats
Scan resolution: Scanned line drawings should be digitized with a minimum resolution of 600 dpi relative to the final figure size. For digital halftones, 300 dpi is usually sufficient.

Color illustrations: Store color illustrations as RGB (8 bits per channel) in TIF format.

Vector graphics: Fonts used in vector graphics must be included. Do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size. Vector graphics exported from a drawing program should be stored in EPS format; the EPS file must always contain a preview of the figure in TIF. Suitable drawing programs include Freehand, Illustrator, Corel Draw, and Designer.

Online manuscript submission
Carefully read the Instructions for Authors to the left. Go to the Diagnostic and Interventional Radiology website at www.dirjournal.org.

Click Online Manuscript Submission. If you are a registered user, enter your username and password. If you are not, register by clicking New User. Fill in the form and click Send. Define your username and password. When Author Center opens, enter New Submission. From this point on, follow the steps by clicking on the Next button. Select manuscript category (neuroradiology, abdominal imaging, etc.) and type (original article, review, etc.).

Enter affiliation, city, and country data (do not abbreviate institutional names). Enter author data. Full names of the authors should be given, an e-mail address must be provided, and corresponding author should be identified.

Enter the manuscript title.

Enter the abstract (it should be structured in all Manuscripts, except letter, review, technical note, and pictorial essay).

Enter the key words.

Enter a cover letter.

Upload your manuscript in the following manner:

Name your manuscript, which must be a Word document, as “text.” This document should contain, in an orderly fashion, the main text (without any author or affiliation information), references, tables on separate pages, and figure legends. Search for your manuscript document by using the Browse button. After selecting the document, click the Upload button. Upload the figures. Every figure part should be properly named as separate files (e.g., “Figure 1a”), browsed as explained above, and separately uploaded. Drawings and graphs are regarded as figures.

After all has been uploaded, click the Send Manuscript button. If you do not click this button, you may visit later to complete the manuscript submission. Your incomplete submission will be saved for later completion.

A signed and scanned version of the Copyright Transfer Form must be submitted for each manuscript through the manuscript submission and evaluation system during the initial submission process. Your submission will not be processed unless the form is received by the editorial office.
ABDOMINAL IMAGING

133 Review. Invisible fat on CT: making it visible by MRI. E. Ünal, A. D. Karaosmanoğlu, D. Akata, M. N. Özmen, M. Karçaaltincaba

BREAST IMAGING

141 Original article. MRI in the differential diagnosis of primary architectural distortion detected by mammography. L. Si, R. Zhai, X. Liu, K. Yang, L. Wang, T. Jiang

CARDIOVASCULAR IMAGING

151 Original article. Temporal course of microvascular obstruction after myocardial infarction assessed by MRI. N. Abanador-Kamper, V. Karamani, L. Kamper, H. Brinkmann, P. Haage, M. Seyfarth

EMERGENCY RADIOLOGY

156 Pictorial essay. CT findings of accidental fish bone ingestion and its complications. S. H. Venkatesh, N. K. V. Karaddi

HEAD AND NECK IMAGING

INTERVENTIONAL RADIOLOGY

173 Original article. The contribution of vacuum-assisted modified Menghini type needle to diagnosis of US-guided fine needle aspiration biopsy of the thyroid. E. Birgi, O. Ergun, T. T. Türkmenoğlu, I. G. Tatar, H. A. Durmaz, B. Hekimoğlu

NEURORADIOLOGY
